Dear Senators Lipman & Feldman,

I am very concerned about the Newark Public Library Layoffs. This Library is the best in the State. I don't think it would operate effciently with these layoffs. So I am pleading with you to push the passage of your bill to put the Library services back into operation.

Sincerely yours,

Edie A. Faulkner

Dear Senators:

What a shame it is to let a valuable reference library go down the way it is. What is being done with revenues from Atlantic City + the N.J. lottery which was to be used for educational facilities?
